Dear All

As we progress further into the latest step of the Roadmap for a return to training and competition we wanted to share our latest strategy for the sport which takes us through to 2032 - Athletes and Runners at the Heart. There are now over 100,000 athletes and runners registered with us for the 2021-22 season and this keeps climbing, over 2000 events have been licenced with us so far, plus demand for our coach and officials education courses is growing each month. There are a few areas below that might help you and your club members as the return to activity continues.

### Run Leader Development Workshops

We are really pleased to be able to announce the return of practical Run Leader Development Workshops that will be taking place in 9 locations across the country. Each location will host a morning and afternoon session for up to 30 Run Leaders covering key topics such as:

Warm up activities

Mobility, range of movement and running technique

Developing ideas to support mixed ability groups

Exploring energy systems

Communication, demonstration and delivery of sessions

Networking and learning from each other

As a reminder, the next available coach training taking place will be the 21st and 23rd June. For further details please contact [support@funetics.co.uk](mailto:support@funetics.co.uk)

### Funding

We will shortly be contacting successful applicants who applied for one of our Club Support or Facility Improvement grants, and opening up a 3rd round of this funding later in the summer. Whilst this fund is closed our Club Support Team are on hand to support you apply for funding through other funders and here are just a couple of examples for funds you may like to explore
