Ticket Plan Insurance

THE SMALL PRINT

Unlike larger events we are in the fortunate position that we can restrict entry numbers and deliver this event in a COVID-secure way, in line with current Government and UKA/Run Britain guidance. We are confident the Chelmsford Half will go ahead as planned in March 2021, however we now live in an unpredictable society and you will quite rightly want to know where you stand if local lockdowns are introduced. As a Social Enterprise we put people before profit and that's why we have developed the following commitment to give you the reassurance you deserve, ahead of buying your entry.

OUR 5 STAGE COMMITMENT:

- 1. If 7 March 2021 is cancelled we will run a virtual race on race day to ensure training does not go to waste.**
- 2. We will postpone the event by 4-8 months, picking a suitable date to avoid major and local races, where possible.**
- 3. If the postponed event is also cancelled we will defer your entry to 2022.**
- 4. If you are unable to make the 2022 event date you will be able to apply for a refund of the ticket price (excluding booking fee).**
- 5. We have included STAR rated TICKETPLAN protection insurance with every ticket. Offering you refund insurance for specified unforeseen events. This may include an injury preventing you from participating.**

ENTRY PRICE
